TELL System Requirements

test of english language learning

The Test of English Language Learning or TELL™ supports a variety of configurations. While a variety of settings and software version combinations may also function, the following are the recommended configurations for optimal use:

Equipment & App

• iOS: iPad 2 or higher including iPad mini. Compatible with iOSv11+.

• Android: All Android tablets with screen sizes 8" and higher. Compatible with all Android v5.0+

• TELL app locally installed on the tablet device.

• App requires an internet connection to begin taking each test and at the end of the test to transfer responses for scoring

• Flash is not required for student or administrative access.

• Tablet compatible headsets (single jack) with boom microphone

• Tablet stand

TELL Content Delivery Options

1. Proctor Caching: Schools can use a local computer to pull and store TELL test content. This stored, or "cached," test content is then distributed to TELL iPads as tests are started.

2. Single Download: Individual test content will be downloaded once student enters login codes.

3. Client Caching: Schools can download all TELL test content or grade band-specific content directly onto individual iPads prior to commencing a testing session.
