## Item Analysis

Bracken Basic Concept Scale—Third Edition: Receptive assesses children's knowledge of important basic concepts. The following Item Analysis table identifies the concepts that Quinn responded to correctly and those that he did not respond to correctly.

M = The child probably understands the concept in most situations (Mastered).

NM = The child probably does not understand the concept in most situations (Not Mastered).

Teach the concepts in a variety of natural situations such as playtime or mealtime.

**Notes:**

Please provide the child's parents with an interpretation of these scores.

**Summary:**

This report lists the subtests that Quinn was given on 2/5/2006 and again on 10/5/2006, and scores that reflect his performance at each testing date. The Item Analysis lists the concepts that Quinn has mastered and those that he has not mastered. You can use the Item Analysis to decide which concepts you may want to work on with Quinn.

Please discuss any questions or concerns you have with J Examiner.
