

# Launching students into success

## A fresh approach to classroom assessments

Are you sacrificing precious classroom time to write assessments? Are you missing insights into what learning has (or has not yet) taken place? Navy was built to help you solve these challenges and more by informing instruction to help guide student learning.

### What is Navy?

Navy is a standard-by-standard classroom assessment suite that provides real-time, actionable, and—most importantly—accurate results to correctly inform personalized instruction. Navy gives you trustworthy learning evidence that's personal to each student to guide targeted instruction. It keeps track of each student's progress on the standards they're expected to learn throughout the school year, making the vision of personalized learning a reality. Assessments are pre-built, and laser-focused on your most recent teaching, making it a breeze to check understanding after instruction.

### Aligned to academic standards for seamless classroom integration

	Grade Level	Standard-by-Standard Assessments <i>Diagnose standard competency at the moment of need with pre-built, bite-sized checks</i>	Standard-by-Standard Practice <i>Flexible pools of practice questions to build your own learning checks</i>	Standard-by-Standard Instructional Resources <i>Top-notch learning resources that target unfinished learning on a specific standard</i>
ELA	K-12	●	●	●
Math	K-12	●	●	●
Science <i>New!</i>	3-12	<i>Coming soon!</i>	●	<i>Coming soon!</i>
Social Studies (US History) <i>New!</i>	3-12	●	●	●

## How does it work?

After teaching a concept, use Navy's bite-sized, pre-built assessments to check each student's understanding of the required standard or learning objective. *Timely, specific, and accurate feedback* paired with *laser-focused instructional resources* mean you can act with purpose to accelerate student progress.

## Get ready to celebrate your students' progress!

Students who use Navy are on a mission to show what they've learned while earning digital, standards-level micro-credentials throughout the year. With Navy's suite of granular assessment and learning resources, you can monitor specific progress and celebrate the wins together.

*"The difference with Navy is being able to know exactly which standard my student is struggling on. That's going to allow me the opportunity to differentiate for that kid based on what they know and don't know."*

— District Curriculum Coordinator

## Teacher dashboard

Sort by standard competency to form a group for personalized support.

With diagnoses backed by research, know who learned a standard you taught...

...and who hasn't learned it yet.

Student	Current Progress	6.EE.1	6.EE.2	6.EE.8	6.G.4	6.NS.1	Course Progress
Neev Ninger	60% (3/5)	✗	✓	✗	✓	✓	10% (3/29)
Piper Pringle	60% (3/5)	✓	✓	✗	✓	✗	10% (3/29)
Trevor Timmons	60% (3/5)	✓	✓	✗	✓	✗	10% (3/29)
Lornezo Laughton	80% (4/5)	✗	✓	✓	✓	✓	14% (4/29)
Sebastian Sevan	100% (5/5)	✓	✓	✓	✓	✓	17% (5/29)
