The SSIS SEL product family is on Review360!
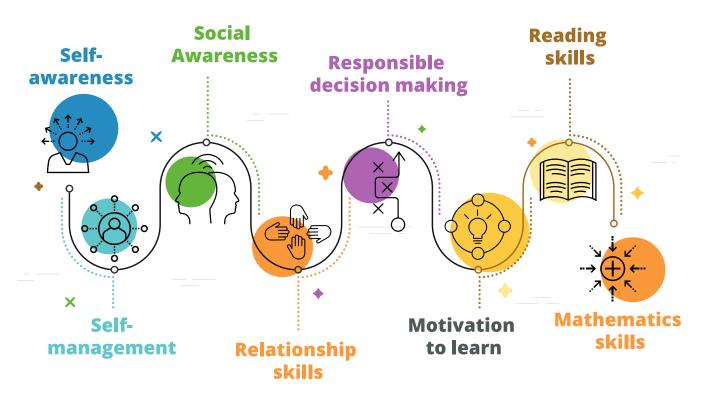

Review360
Behavior Matters

The SSIS™ Social-Emotional Learning Edition (SSIS SEL) is a comprehensive, evidence-based social-emotional learning system that assesses key CASEL-identified competencies and related social skills. It is administered individually or to a group of students digitally through Review360® in a matter of minutes.

Our two new Univeral Screening units are offered in English and Spanish. Additionally, it can be used to guide the application of its evidence-based interventions within a multi-tiered framework.

SSIS SEL is 100% aligned to the key CASEL-identified competencies framework.

DID YOU KNOW?

With SSIS SEL you can assess and teach:

- **Self-awareness**
- **Social Awareness**
- **Responsible decision making**
- **Reading skills**
- **Self-management**
- **Relationship skills**
- **Motivation to learn**
- **Mathematics skills**

Pearson

SSIS SEL Solution: Integrated System & Aligned Process

- Screening and Assessment can guide Intervention
- Progress Monitoring and Diagnostic Assessment can be used to evaluate performance on each social emotional skill and related competency, and it can also assess overall student outcomes

Universal Screeners	Progress Monitor	Diagnostic Assessment	Intervention
SSIS SEL Brief Scales and/or Brief Scales + *Mental Health (Choice)*	SSIS SEL Screening/Progress Monitoring Scales	SSIS SEL Rating Forms	SSIS SELClasswide Intervention Program 2020
• Student • Teacher • Parent	• Teacher	• Student • Teacher • Parent	*(price as an optional component)*

Fully Aligned Assessments that Measure the Same Skills Taught in the Intervention Program

The five components to SSIS SEL on Review360

1. **SSIS SEL Brief + Mental Health Scales:** Brief, universal screeners that can be completed by a teacher, parent, or student for social emotional learning skills and/or mental health.

2. **Progress Monitoring Scale:** A criterion-referenced teacher-completed form that provides a quick evaluation of an entire class across the five SEL areas. The results are directly aligned with the Skill Units from the Classwide Intervention Program that includes a criterion-referenced assessment of three academic areas, providing guidance that targets interventions to the specific needs of a classroom of students.

3. **Rating Forms:** More in-depth norm-referenced assessments administered individually and completed by teachers, parents, or students. Results include standard scores, item analysis, and links to suggested Skill Units in the intervention.

4. **SSIS SEL Classwide Intervention Program 2020 (CIP):** The SSIS SEL CIP 2020 now includes 30 Skill Units covering Self-Awareness, Self-Management, Social Awareness, Relationship Skills, and Responsible Decision Making using a highly effective instructional approach with all digital materials (PowerPoints, videos, etc.) to maximize engagement.

5. **Review360 SEL Professional Development Course:** Review360 includes an online SEL course that assists educators in integrating SEL assessment and instruction into their instructional and support processes. The course is comprised of 13 units that cover a range of relevant topics, including the importance of SEL, how it improves student-teacher and student-student relationships, and strategies for promoting SEL.
